Activities:

During the afternoons children can join us for a pottery making class, giving you a chance to relax by the pool, take a siesta, or finish that book you've been wanting to get around to.

If pottery doesn't appeal, we also host exciting Spanish lessons for your little ones underneath the olive trees. Through songs, games, flamenco and even a piñata - they will pick up more Spanish than in any classroom whilst you enjoy a long relaxing lunch in the sunshine.

As well as our activities we have plenty of sunshine and warm temperatures . Our 17 metre heated seawater pool and countryside setting is also very tough to beat - especially as we have free soft drinks and beer as and when you need them! On top of that there's one of Spain's most beautiful, virgin white beaches only 15 minutes away. Casa La Siesta is located in the south of Spain, on the outskirts of the beautiful town of Vejer de la Frontera in the province of Cadiz (Andalucia).

We want to make you feel like our home is your home. Our large, luxury rooms sleep two adults and one child comfortably. We will also offer adjacent rooms for up to 3 more children. Healthy and delicious children's menus are orchestrated to keep our little ones' tummies full and those muscles strong.
